7.45	Helping at home Mrs. Davis	SATs papers Mrs Jones	Long division Mrs Clynes		Reading Skills Miss Cottrell	Grammar Miss Hartley	Adding and subtracting fractions Mr Dunn

Helping at home

Parental involvement at home has a significant positive effect on children's achievement

As children are likely to harbour similar attitudes and beliefs as their parents, having **high parental expectations** appears vital for academic achievement of children

What parents do is more important than who you are.

Homework expectations in upper key stage 2

The maths, English and topic tasks should take approximately 30 minutes each.

There will be 'Mathletics' tasks set each week.

Also reading at home at least 3 times a week.

Practising times tables so they are fluent

Practising spellings.

Growth Mindset and Learning Powers

Children need to believe in themselves and that they can do something.

When they say they can't do something - add on YET!

Not using language that can make them think they won't be able to do something.

'I've never understood grammar'

'I could never do maths at school'

growth mindset voice

INSTEAD OF SAYING...

I'm not good at this

I'm brilliant at this

I give up

This is too hard

I can't do this

I've got this wrong

I'll never be as clever
as her

It's not good enough

TRY SAYING...

What am I missing?

I'm on the right track!

I'll try a different way

This is going to take
time and effort

I'm going to learn
how to do this.

Mistakes help me
learn better

I'm going to learn how
she does it so I can too!

How can I improve it?
